

IDDSI Liquid Level Testing

Last month's **IDDSI Can Do!** introduced the Easy to Chew – Level 7 food texture. This month, we are moving in a new direction towards the IDDSI liquid levels. All the details can be found in the [IDDSI Framework](#) or through the **free** IDDSI app.

What are the IDDSI liquid levels?

 IDDSI 2.0. | July 2019

Level 0: Thin

Level 1: Slightly Thick

Level 2: Mildly Thick

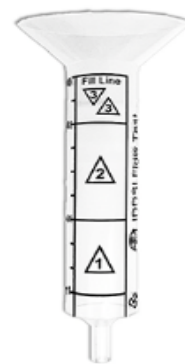

Level 3: Moderately Thick

Level 4: Extremely Thick

To verify the liquid levels, use these [audit tools](#) and share this information with the Patient handouts for [adults and children](#).

The innovative IDDSI “funnel” is coming soon. Why is this funnel so unique?

1. Developed specifically for IDDSI liquid testing.
2. IDDSI level identifiers are clearly visible on the funnel.
3. Ergonomically easy to hold while testing.
4. Large spout allows easy filling and cleaning.
5. More environmentally friendly, as no plunger to discard.
6. Global accessibility through the new IDDSI E-store (coming soon)
7. Cost effective as IDDSI funnels can be cleaned and re-used.

Interested in buying IDDSI Funnels? Fill out the form here:
